Commercial Pilot Licence – Aeroplane

Pre-Requisites:

There is no requirement regarding education other than that you must be able to read and write one of Canada's official languages.

Minimum age: 18 years

Transport Canada category 1 medical certificate

Private Pilot Licence

Requirements:

80 hours commercial pilot ground school (following the issue of a PPL)

200 hours flight time, of which at least:

35 hours must be with an instructor (dual)

100 hours must be as pilot in command (solo)

20 hours must be cross country experience

20 hours of Instrument training

Minimum CPL course cost:

Piper Cherokee	
Private Pilot Licence:	\$9,855.00
35 hrs dual instruction @ \$230/hr:	\$8,050.00
85 hrs solo @ \$165/hr:	\$14,025.00
10 hours instrument training(sim):	\$850.00
10 hours instrument training(airplane):	\$2,300.00
Total:	\$35,080.00*

All rates are wet (include fuel/oil costs) but do not include applicable taxes.

The night rating and all required cross-country training are included in the hourly breakdown.

*This is the minimum cost for a Commercial Pilot Licence. It is very unlikely to complete the course in the minimum time. In our experience, the average student without previous flying experience will take longer and can expect a more realistic cost would be between \$35,080.00 and \$42,000.00

Courses may be paid:

- as you go
- by a deposit of a given amount
- by a deposit of total amount

Refund Policy: A full refund will be given for unused deposits if the student withdraws from the course.

Privileges: This licence allows you to work as a pilot.
